

# BACKRETE® Foaming FOOD GREASE DIGESTER

*Bioactive Surface Cleaner, Digester & Deodorizer & Grease Trap Treatment.*

*High Strength, Bioactive Cleaner for Concrete, Dumpster Pads,  
Grease Traps, Kitchen Floors, Bathroom Floors, Sidewalks, Trash Cans, Porous Tile & Grout*

BackKrete Foaming Grease Cleaner, Digester & Deodorizer Kit is designed to clean, consume and degrease a wide variety of food greases. Just **Foam, Scrub and Rinse**. This may be used indoors or outdoors. Contains safe, effective cleaners, Lipase enzymes to consume food greases, and a broad Bacteria blend to consume urine, vomit & feces. May be used to consume and clean food greases on outdoor concrete areas, ceramic tile, kitchen floors, back door areas, trash cans & dumpsters. May also be used around toilets, urinals, bathroom floors & in grease traps.

**For Use On:**

- Concrete Areas
- Back Door Areas
- Kitchen Floors
- Bathroom Floors
- Trash Cans and Dumpsters
- Grease Traps

**--Directions For Use: 'Just Foam, Scrub, & Rinse'**

1. Connect Enclosed Green Foaming Sprayer to quart bottle.
2. Connect Garden Hose to Foaming Sprayer & turn on hose.
3. **Push Back the Stiff Tab** and move the setting from "off" to "on".
4. Aim the Sprayer in the direction to clean, foaming solution will flow.
5. **Foam the area to be cleaner well.**
6. Turn the setting to "off"; **Agitate soiled area with a scrub brush.**
7. **Allow foam to soak** for up to 5 minutes, if possible.
8. **Rinse area with water**, by moving the setting to "water".
9. When finished cleaning, move setting to "off", release hose pressure.

**--To use without the foaming spray head:**

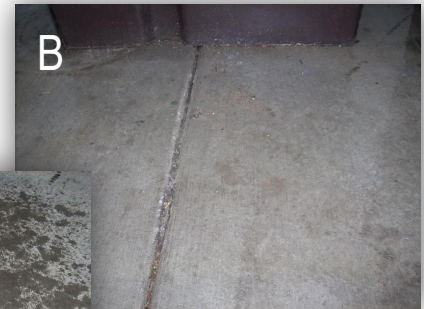

- 1) Dilute in a clean bucket at 4 oz. per gallon of water.
- 2) Agitate floor with a brush or clean mop.
- 3) Allow to dwell on floor.
- 4) Rinse floor.

**--To use for grease traps:**

- Daily Maintenance: Apply 4 oz per day.
- Initial Shock Treatment: Apply 2 gallons per grease trap

**-- To use with automatic floor scrubber machine.**

- Dilute at 4 oz per gallon of water in the tank.
- Scrub floor thoroughly.
- Then pick up solution.

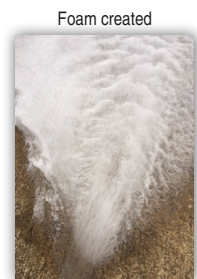

(B) This is same concrete slab after scrubbing with BackKrete Foaming Food Grease Digester and allowing the cleaning solution to soak in overnight.

(A) Concrete slab beneath a restaurant dumpster, soiled with grease and food stains.

The bacteria in BackKrete Foaming Food Grease Digester prefer a warm, humid environment for their most active metabolic rate of consumption. Best results are seen after (24) hours' use.
